Notes to the Financial Statements For the half-year ended 31 December 2016

Note 1 Summary of Significant Accounting Policies

Basis of preparation of half-year report

These general purpose financial statements for the half-year reporting period ended 31 December 2016 have been prepared in accordance with Australian Accounting Standard 134: *Interim Financial Reporting* and the Corporations Act 2001. Compliance with Australian Accounting Standards ensures that the financial statements and notes also comply with International Financial Reporting Standards. The Company is a for-profit entity for financial reporting purposes under Australian Accounting Standards.

This condensed half-year financial report does not include full disclosures of the type normally included in an annual financial report. Therefore, it cannot be expected to provide as full an understanding of the financial performance, financial position and cash flows of Dacian Gold Limited and its controlled entities ('the Group') as in the full financial report. Accordingly, these half-year financial statements are to be read in conjunction with the financial statements of the Group for the year ended 30 June 2016, together with any public announcements made during the half-year.

The same accounting policies and methods of computation have been followed in this interim financial report as were applied in the most recent annual financial statements.

These financial statements have been prepared on the going concern basis.

Adoption of new and revised accounting standards

In the half year ended 31 December 2016, the Group has reviewed all of the new and revised Standards and Interpretations issued by the AASB that are relevant to its operations and effective for annual reporting periods beginning on or after 1 January 2017.

It has been determined by the Group that, there is no material impact of the new and revised standards and interpretations on its business and therefore no change is necessary to the Group's accounting policies.

The Group has also reviewed all new Standards and Interpretations that have been issued but are not yet effective for the half-year ended 31 December 2016. As a result of this review the Directors have determined that there is no impact, material or otherwise, of the new and revised Standards and Interpretations on its business and, therefore, no change is necessary to Group accounting policies.

No retrospective change in accounting policy or material reclassification has occurred requiring the inclusion of a third Statement of Financial Position as at the beginning of the comparative financial period, as required under AASB 101.

The half-year financial statements were approved by the Board of Directors on the 28th of February 2017.

Estimates

When preparing the interim financial statements, management undertakes a number of judgements, estimates and assumptions about recognition and measurement of assets, liabilities, income and expenses. The actual results may differ from the judgements, estimates and assumptions made by management.

The judgements, estimates and assumptions applied in the interim financial statements, including the key sources of estimation of uncertainty were the same as those applied in the Group's annual financial statements for the year ended 30 June 2016.

Notes to the Financial Statements For the half-year ended 31 December 2016

Note 2 Segment information

AASB 8 requires operating segments to be identified on the basis of internal reports about the components of the Group that are regularly reviewed by the chief operating decision maker in order to allocate resources to the segments and to assess its performance. The chief operating decision maker is the Managing Director.

Reportable segments disclosed are based on aggregating operating segments, where the segments have similar characteristics. During the half year ended 31 December the Group's sole activity was mineral exploration wholly within Australia, therefore it has aggregated all operating segments into the one reportable segment.
